

WATERSAVR O&G™

a **ResEnTech** product

“The *Sustainable Solution* for Oilfield Water Loss”

Evaporation from Water Storage Ponds is Costly

Evaporation is a persistent issue, resulting in the continuous loss of water

WaterSavr O&G™ Saves Costs by Reducing Evaporation

EFFECTIVE & EFFICIENT

- Reduces evaporation by 20-40%
- One-pound protects one-acre

ECONOMICAL

- Zero CAPEX required

SIMPLE TO APPLY

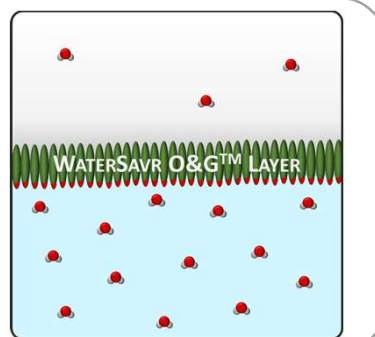

- Pre-packaged for ease of use
- Works in minutes

SAFE & CONVENIENT

- Biodegradable
- Environmentally friendly

Technology

WaterSavr O&G™ is a patented **chemical treatment** technology that produces a **one-molecule thick** surface layer. The surface layer **self-assembles** and impedes the transfer of water molecules into the atmosphere.
